

Laurel School Laurel School

Wednesdays 2:55 – 3:55 PM
Feb 4, 2009 – Jun 3, 2009
(17 sessions)
No class on: 4/8

Olympic Fencing

This class is open to beginners and intermediate fencers.

If you have taken fencing before, this will be a good way to continue exploring the fun world of fencing and learn new fencing skills and techniques. For beginners, you will learn a fantastically exciting new sport, develop your motor skills and learn to think creatively.

First Place Fencing School Program: Crafted over the years specifically with children in mind, our after-school program is geared towards helping our young fencers develop the right character traits, mental toughness and good physical skills. Designed for fun and to nurture passion for fencing, our lessons are for both beginners and kids with prior experience. Games and activities are tightly integrated into our fencing lessons to help children develop better motor skills, maintain focus and improve overall physical fitness.

All Equipment provided. Students will use practice foils and jackets and will learn the basics of foil fencing. It is recommended that students obtain their own personal mask (which they can use later for Olympic electric fencing should they choose to pursue the sport competitively.) Store retail price \$49, student discount price \$40.

Class Size: 8 – 16 **Grades:** K - 2

Where: In the Laurel Multi

What to Wear: T-shirt, athletic pants, athletic shoes
